

CleanSweep Facility Services

Service Level Agreement Summary — Hotel Client Contracts

Document ID: SLA-SUM-01 Version: 1.4 Covers: Grand Meridian Hotel, Harbor View Suites, Alpine Plaza Hotel

1. Service scope

CleanSweep Facility Services provides daily housekeeping (cleaning) and quality assurance (checking) staff for guest rooms at each contracted hotel, along with an on-site supervisor per hotel and a shared head of supervisors overseeing all contracted properties.

2. Quality SLA targets

Metric	Target	Review cadence
Room inspection pass rate	>= 90%	Weekly
Same-day room cleaning completion	>= 98%	Daily
Guest complaint rate re: cleanliness	< 1.5% of stays	Monthly
Staff absenteeism rate	< 8%	Monthly

3. Penalties for missed SLA targets

If the room inspection pass rate falls below 90% for two consecutive months at any hotel, CleanSweep issues a 2% service credit against that hotel's monthly invoice. If it falls below 80% for any single month, the hotel may request a formal corrective action plan within 10 business days.

4. Staffing commitments

CleanSweep commits to maintaining at least 90% of each hotel's rostered cleaning and checking headcount on any given day. Hotels experiencing sustained understaffing below this threshold for more than 3 consecutive days may escalate directly to the head of supervisors.

5. Contract review

Each hotel contract is reviewed annually against actual performance data, including total hours delivered, inspection pass rates, and absenteeism trends recorded in the workforce management system.
