Labor Policy: Working Hours and Overtime Compliance

Document ID: LAB-POL-02 Version: 4.0 Jurisdiction: Germany (Arbeitszeitgesetz aligned)

1. Standard working hours

The standard scheduled shift is 8 hours per day, 5 days per week. Total weekly scheduled hours must not exceed 40 hours under standard rostering.

2. Maximum hours cap

In line with German labor law, no worker may exceed 10 hours of actual work in a single day, and average daily hours over any 6-month period must not exceed 8. Any shift logged above 10 actual hours in a single day is a compliance violation and must be reviewed by the head of supervisors within 48 hours.

3. Overtime approval

Overtime (any actual hours beyond the scheduled 8) must be pre-approved by the hotel supervisor except in emergency coverage situations. Overtime is paid at 1.25x the standard hourly rate for the first 2 overtime hours, and 1.5x beyond that.

4. Rest periods

A minimum rest period of 11 consecutive hours is required between the end of one shift and the start of the next. Workers are entitled to a 30-minute unpaid break for shifts exceeding 6 hours, and 45 minutes for shifts exceeding 9 hours.

5. Weekly hours reporting

Each hotel supervisor must review weekly actual-hours reports every Monday for the prior week. Any worker averaging above 45 hours/week for 2 consecutive weeks should be flagged in the compliance dashboard and discussed with the head of supervisors.
